SUMMARY

25X1C

Belaya Tserkov Army Barracks NW and an associated storage area are located on the north-west edge of Belaya Tserkov adjacent to the Belaya Tserkov-Fastov Railroad (Figure 1).

The barracks area covers approximately 280 acres and contains one administration building, 4 barracks, 2 probable vehicle maintenance sheds, 33 storage buildings, 14 support buildings, 2 small-arms firing ranges, an athletic field, and a figure-8 wheeled-vehicle driver-training course. The double-secured associated storage area immediately north of the barracks covers approximately 230 acres and contains 33 storage buildings and 9 support buildings (Figures 2 and 3).

The referenced Army and [REDACTED] reports indicate the storage area is an integral part of the barracks area; however, the large number of storage buildings and the separate security measures, consisting of double fencing, suggest the separate and primary function of a storage depot. The direct road connection between the two areas indicates a probable association.
